

20 December 2013

**NORTH WEST RAIL LINK - EARLY CONSTRUCTION WORK**  
**New access into Castle Hill Showground – from early January 2014**

The North West Rail Link is a priority transport infrastructure project for the NSW Government.

We are continuing essential site preparation activities, which are an important part of early construction work for the project.

From early January 2014, access into Castle Hill Showground will be via new traffic lights and access road located along Showground Road (see map overleaf), providing full access to the Showground from both directions.

Residents, precinct users and motorists will be advised of the traffic change date via electronic message boards.

**In the event that the new traffic lights are not commissioned:**

In the event that the new traffic lights are not commissioned due to changed site conditions or weather, access into Castle Hill Showground will be via left-in and left-out access only (see inset overleaf).

- Motorists travelling eastbound towards Castle Hill will access the Showground via Victoria Road, Carrington Road and Showground Road.
- Motorists travelling westbound will access the Showground at the new intersection located along Showground Road via a left-in turn.
- Detour signage will be in place to direct motorists.

**Changes to Doran Drive:**

Please note from early January, Doran Drive will be closed to general traffic, and open only to construction traffic. Barriers and signage will be put in place.

Again, residents, precinct users and motorists will be advised of this change date via electronic message boards.

For more information on these works phone the project hotline on 1800 019 989 or email [info@northwestrail.com.au](mailto:info@northwestrail.com.au)

**Thank you for your patience and cooperation while we carry out these important works.**

Traffic arrangements in the event of wet weather or changed site conditions

No right turn

Left-in and left-out access only

New access off Showground Rd

Doran Drive - construction traffic only

**Legend**

- Site fencing
- Early works completed
- New access road
- New traffic lights
- Variable message sign locations
